## MICROSCOPY, IMAGE, AND DATA ANALYSIS SOLUTIONS FOR SCIENCE

MIDA.science assists you in conceiving and executing quantitative microscopy experiments that combine fluorescence microscopy techniques and image and data analysis pipelines.

### SERVICES:

#### Microscopy

MIDA.science assists you in planning and optimising microscopy experiments, developing dedicated software, or executing the imaging itself.

---

#### Image Analysis

MIDA.science assists you in choosing, adapting, or developing image analysis solutions for your scientific goals and helps the optimisation of your microscopy experiments to maximise the quality of the image analysis results.

---

#### Data Analysis

MIDA.science assists you in performing data and statistical analysis and choosing the best solutions to interpret and communicate your measurements effectively.

---

#### Consulting

MIDA.science consulting services will help you find the right balance between **Microscopy**, **Image Analysis**, and **Data Analysis** to perfect and enhance your microscopy.
